

Sentry Series Gasketed Enclosures for Wet and Damp Locations

Optional Miro® 4 Reflector

Motion sensor available option

Sentry Series

En-Seal™

U.L. Recognized for Superior Performance

When you need the finest available Gasketed Enclosures, New Horizon Lighting delivers with a completely dust- and moisture-free solution

- Sturdy enclosure constructed with a fiberglass upper body
- Acrylic, crepe-pattern diffuser is permanently positioned with a poured-in-place sealing gasket
- Locked-in-performance: The diffuser and upper components are held tight by retaining latches for a slip-free seal

The Gasketed Enclosure is a U.L. recognized component, certified by the NSF international and has the CSA Component acceptance mark. By installing a U.L. listed fluorescent strip light or channel type lighting fixture into the Sentry Series Gasketed Enclosure and submitting the entire unit to Underwriters Laboratories, a U.L. Listed fixture suitable for use in wet or damp locations can be realized.

Features:

Gasketed Diffuser Retention Slot

The gasketed inverted U-slot provides a positive continuous seal between body and diffuser.

Brass Fixture Mounting Stud

The fixture studs are integrally molded into the body to facilitate lighting fixture installation.

High Impact Acrylic/Dr Diffuser

Internal crepe pattern allows a smooth exterior surface for ease of cleaning.

Diffuser

The diffuser flange fits snugly into the gasketed retention slot forming a continuous seal.
