

# Staggered Strip Series

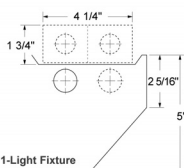

End View: 1-Light Staggered Strip

End View: 1-Light Staggered Strip

Side View: 1-Light Fixture with Asymmetric Reflector

Side View: 1-Light Fixture with Asymmetric Reflector

## Specifications

- **Housing:** Die-formed heavy-gauge cold rolled steel (20 gauge upon request). Spot-welded for maximum strength. Wiring components can be mounted in the one-piece housing, allowing easy removal of the cover for maintenance. Cover attaches to body with #8-32 wing nuts (not included).
- **Finish:** White polyester polymer with a minimum of 82% reflectivity.
- **Mounting:** Surface or pendant mount, individually or in continuous rows. Sufficient knockouts are provided.

## Accessories

- DIM-Dimming Ballast
- REF-Reflector System (consult with factory for options)
- EM-Emergency Ballast
