

2x2 and 2x4 T5-SB Recessed Side Direct/Indirect Fixtures

Soft, Contemporary Lighting

Bring efficient, soft and balanced illumination to your building. These attractive 2x2 or 2x4 direct/indirect fluorescent fixtures feature side-mounted lamps and fine fit and finish.

- **No visible light source or glare:** Housing and lamp compartments are fully recessed above the ceiling plane
- SDI lamps provide comfortable lighting
- Perforated baffle and curved reflector produce a combination of direct and indirect light for full illumination

SPECIFICATIONS

Housing: 20-gauge cold rolled steel.

Perforated Baffle: White perforated metal basket with white opal acrylic diffuser inlay. Releases with retractable pins for fast relamping and maintenance.

Lamps: 2 Biax, Dulux L or PL-L lamps with 2G11 bases or 2 or 4 T5 Lamps.

Finish: Low gloss, high reflectivity powder coat finish. Pre-treated with iron phosphate for superior paint adhesion.

Mounting: Standard troffer mounting for easy installation in T-bar ceilings.
